

### **Commemorative Park Tables: \$3,000**

Table locations are generally close to the hike and bike trails or within short walking distance. Upon payment receipt, the bench will be ordered, assembled, and installed with an inscribed plaque attached (see details in Trees section). Donors will be notified once a table is installed. Lead time to acquire and install table is about eight weeks. EGC cannot guarantee a specific installation date. Donors may not modify the table or add additional plantings, flowers, or permanent decorations to the area. The table inscription may be publicized in the Exploration Green newsletter and website along with a picture if available.

The \$3,000 donation includes cost of table and seats, concrete slab, plaque with inscription, shipping, assembly, installation and incidentals. Below is a sample image of the table.

#### Locations

Currently, general table locations are set in Phase/Section 1, and donors may choose locations in Section 1 until each location is chosen by a donor. Donors may make donations now for tables in future sections, although locations in each section will not be identified until that section's excavation is completed.
